

# Project Profile:

## Heritage Keys Townhomes: Phase 1

When: Summer 2006

Where: Kissimmee, FL

Crew size: 4 men

Number of Units: **158**

Units per week: 12

Length of Epic Wall: 13,679 feet

Who: Land & Co., Wyoming, MI

Details: Land & Co. uses "Tunnel Form" construction to build the concrete floors, roofs and side walls for the Heritage Keys Townhomes. They needed a fast, solid concrete answer for the front and rear walls. Epic Walls were the perfect fit. While the speed of construction kept the project on the fast track. The strength of the Epic Wall maintained the requirements for hurricane safety and the R 15.3 insulation saved on energy costs.
