

# Project Profile:

## Tire Kingdom - 4 Corners

When: November 2007

Where: Clermont, FL

Crew size: 3 men

Installation Time: **4 days**

Panel Height: 22 ft & 24 ft

Length of Wall: 390 LF

Who: Pavilion Development

Details: The owner selected Plant Cast Tilt Wall because of the need for the speed of construction and quality of the solid concrete wall panels. Panels are engineered to withstand hurricane force winds. Office area was insulated to R-15 and furred, ready for dry wall.
