

# Project Profile:

## Westwinds Assisted Living

When: February 2007

Where: Zephyrhills, FL

Crew size: 4 men

Installation Time: **7 days**

Building Size: 68,000 sqft

Length of Epic Wall: 2322 LF

Who: Core Construction, Sarasota, FL

Details: Project was originally designed for wood frame construction. Converted to precast concrete for insurance coverage considerations and speed of construction. Epic Walls were completed ahead of schedule and interior framing was started early, while the walls were still being installed.
